Personal Statement

Seeking a part-time role where I can gain experience, contribute positively, and continue developing both my technical and interpersonal skills.

I have experience working in team environments through volunteering, particularly in technical and front-facing roles, and I take pride in being reliable, adaptable, and willing to learn.

Work Experience

Volunteer Receptionist

Rock Christian Centre, Sheffield
September 2025 – January 2026

- Provided a welcoming and organised front-facing presence
 - Assisted with general organisation and coordination during events
 - Managed the sign-in process for visitors and attendees
-

Volunteer AV Technician

Rock Christian Centre, Sheffield
January 2026 – Present

- Work collaboratively with a team to ensure smooth and consistent delivery of services
 - Assist with the operation of live services, including managing on-screen text and supporting livestream production using vMix
 - Adapt to different roles when required
-

Software Developer (Personal Projects)

January 2023 – Present

- Continuously building knowledge in low-level and systems programming
 - Develop backend programs using C and Assembly, with additional experience in C#
 - Currently working on an Operating System project as part of my A-Level EPQ
 - Planning future projects, including developing a game engine using OpenCL and C
-
